

Dealer Supply Network

Your Wholesale Construction Supply Partner since 1995

www.DSNsupply.com | 321-259-0876 | sales@dsnsupply.com

Who We Are:

DSN is a USA based family owned and operated company. In 1995, Davin and Debi Raymond founded Dealer Supply Network from ground zero. Shortly after, the Raymond's partnered with Dan Terrio to build the company's strong rooted relationships across the United States. Over the last 3 decades, DSN has grown into one of Florida's top-ranking wholesale suppliers for the industry's most on-demand products. AND we are still growing through our hard-work and humility. In 2021 Isaiah Johnson, and his wife Amber, proudly joined the DSN Team. Isaiah is the current President, while Amber has stepped into his role as VP.

Our Vision

To be the one stop source for quality construction products!

Our Mission

We strive to satisfy customers and build long term relationships with knowledgeable service while providing quality construction products.

Our Promise

- To grow our company by hard work, honesty, and loyalty
- To provide friendly, respectful, prompt, and well-trained team members.
- Our products will be reliable, easy-to-use, and well stocked.
- We will choose to enjoy the journey!

Quality

Unapparelled quality products is our focused goal as the majority of our stocked products are made in the USA!
ONLY THE BEST, NOTHING LESS! SUPPORT AMERICA!

Core Products as follows but not limited to:

- Mason Line
- Marking Paint
- Fall Protection
- CF Hard Hats
- PPE
- Floatation Devices
- Levels
- Tapes
- Caution Tape
- Metal & Concrete Drilling
- Steel, Concrete & Wood Blades
- AND MUCH MUCH MORE!!!

Together as a team we are working diligently through modern innovations to bring the newest products directly to store fronts across the southeast United States. Thank you for your continued support and vote of confidence!

118FY24	1 lb.	1000'	Flo-Yellow	24 pk
118WH24	1 lb.	1000'	White	24 pk
118MR24*	1 lb.	1000'	6 White, 6 Flo-Green, 6 Flo-Orange, and 6 Flo-Yellow	24 pk

Note: we can sub pink for another color.

- Twisted mason twine has a tremendous breaking strength for a small twine.
- Excellent resistance to rot, abrasion, mildew, marine growth, petroleum products, and most chemicals.
- Many uses include fishing line, net repair, plumb line, chalk line, and duck decoy line.
- Colors include florescent orange, florescent green, florescent pink, florescent yellow, gold, and white.

BRAIDED TWINE

SKU	Size	Length	Color	Quantity
1218FGB24	1/2 lb.	500'	Flo-Green	24 pack
1218FOB12	1/2 lb.	500'	Flo-Orange	12 pack
1218FPB12	1/2 lb.	500'	Flo-Pink	12 pack
1218FYB12	1/2 lb.	500'	Flo-Yellow	12 pack
1218WHB12	1/2 lb.	500'	White	12 pack
118FOB12	1 lb.	1000'	Flo-Orange	12 pack
118FPB12	1 lb.	1000'	Flo-Pink	12 pack
118FYB12	1 lb.	1000'	Flo-Yellow	12 pack
118FGB12	1 lb.	1000'	Flo Green	12 pack
118WHB12	1 lb.	1000'	White	12 pack

- Braided mason twine is a very strong, abrasion resistant cord.
- Tremendous breaking strength for a small twine and is superior to twisted twine for holding knots.
- Comes in florescent orange, florescent green, florescent pink, florescent yellow, and white colors.

SP118BPB12	1 lb.	1000'	Salt & Pepper/Flo-Pink	12 pk

- Premium bonded/braided mason line is the highest quality for all your line needs.
- The braiding process creates extra elasticity reducing sagging, making it perfect for laying out even rows of brick.
- Florescent colors with salt-and-pepper coloring mixed in are highly visible on the jobsite.
- Bonded for better knot holding.

11/16" STEEL CARABINER

SKU	Type	Material	Strength
FS1015	Twist lock	11/16" yellow zinc coated steel	3,600 lbs gate strength

The FS1015 is one of the most popular standard carabiner for fall protection applications. It is self-locking with a twist lock, and has a gate strength of 3,600 lbs.

1 3/4" STEEL CARABINER

SKU	Type	Material	Strength
FS1017	Twist lock and captive pin	1 3/4" yellow zinc coated steel	3,600 lbs gate strength

The FS1017 is ideal for jobs that require larger carabiner, while ensuring strength and durability. It has a gate strength of 3,600 lbs and gate opening of 2.01" and can also be used as a captive eye carabiner by simply inserting the pin that is included with the unit.

RETRACTABLE STEEL BRACKET

SKU	Weight	Material	Strength
FS-9012	0.3 lbs	Zinc-plated steel	5,000 lbs min. to break

The Retractable Steel Bracket is designed for the quick installation of both single and dual leg SRLs.

- Quick installation
- Secure slide gate
- Use with single and dual SRLs

TRIPLE ACTION RETRACTABLE BRACKET

SKU	Weight	Material	Strength
FS-9013	0.3 lbs	Forged steel, aluminum alloy	5,000 lbs min. to break

The Triple Action Retractable Bracket is designed for both single and dual leg SRLs. The bracket installs behind the dorsal D-ring webbing and gate swings open for quick installation or removal of the SRL.

- Aluminum bracket body
- Ultra-secure connection
- Steel swing gate for easy access

6' SINGLE WEB RETRACTABLE W/ STEEL SNAP HOOK & CARABINER

The Latitude 6' Single Web Self Retracting Lifeline is both compact and lightweight for ease-of-use and all-day comfort. The unit offers enhanced mobility plus the convenience of direct harness connection. Designed to arrest falls within inches, this SRL is an ideal solution for low heights.

- Quick-locking unit designed for use at low heights
- 360/180° attachment point offers full range of motion
- Durable housing increases strength and longevity
- External shock pack with energy absorber and protective label cover
- All components are Z359.12 compliant
- Materials: Steel carabiner, nylon housing, 20 mm UHMPE webbing, steel snap hook, polyester shock pack

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-019-5044	Up to 420 lbs	130-310 lbs	6 ft.

6' SINGLE WEB RETRACTABLE W/ STEEL SNAP HOOK & CARABINER

The 019-5046 6' web self-retracting lifeline with a steel rebar hook combines lightweight design with durability. The unit comes with a steel carabiner and has a rotating and pivoting attachment point for improved mobility, making it the ideal personal retractable.

- High-strength, lightweight webbing and housing
- 360° rotating & 180° pivoting attachment point
- Durable shock pack & protective label cover
- Steel carabiner included
- All components are Z359.12 compliant
- Materials: Steel carabiner, nylon housing, 20 mm UHMPE webbing, steel rebar hook, polyester shock pack

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-019-5046	Up to 420 lbs	130-310 lbs	6 ft.

Class 1

6' DUAL WEB RETRACTS W/STEEL SNAP HOOKS & 9013 BWB BRACKET

The 019-5052 6' dual-leg web self-retracting lifeline with steel snap hooks and the 9013 behind-the-web bracket is a quick-locking unit designed for use at low heights and designed to arrest falls within inches. It is both compact and lightweight for ease-of-use and all-day comfort. The unit offers enhanced mobility plus the convenience of direct harness connection.

- High-strength, lightweight webbing
- Dual hooks to maintain 100% tie-off
- 360/180° attachment point offers full range of motion
- All components are Z359.12 compliant
- Materials: Steel/aluminum bracket, nylon housing, 20 mm UHMPE webbing, steel snap hooks, polyester shock pack

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-019-5052	Up to 420 lbs	130-310 lbs	6 ft.

Class 1

6' DUAL RETRACTS W/ STEEL REBAR HOOKS & 9013 BWB BRACKET

The 019-5054 6' dual leg web self-retracting lifeline with steel rebar hooks and the 9013 behind-the-web bracket is both lightweight and durable. It is both compact and lightweight for ease-of-use and all-day comfort. The unit offers enhanced mobility plus the convenience of direct harness connection. Designed to arrest falls within inches, this SRL is an ideal solution for low heights.

- External shock pack with energy absorber and label cover
- Durable housing increases strength and longevity
- All components are Z359.12 compliant
- Materials: Steel/aluminum bracket, nylon housing, 20 mm UHMPE webbing, steel rebar hooks, polyester shock pack

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-019-5054	Up to 420 lbs	130-310 lbs	6 ft.

Class 1

6' WEB DUAL LEG RETRACTABLE WITH STEEL REBAR HOOKS & 9012 BWB

The 019-5058 6' dual leg web self-retracting lifeline with steel rebar hooks combines lightweight design with durability. It is both compact and lightweight for ease-of-use and all-day comfort. The unit offers enhanced mobility plus the convenience of direct harness connection. Designed to arrest falls within inches, this SRL is an ideal solution for low heights. Comes with a 9012 behind the web bracket and has rotating/pivoting attachment points for improved mobility, making it the ideal personal dual leg unit.

- All components are Z359.12 compliant
- Materials: Steel/aluminum bracket, nylon housing, 20mm UHMPE webbing, steel rebar hooks, polyester shock pack

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-019-5058	Up to 420 lbs	130-310 lbs	6 ft.

Class 1

7' SINGLE WEB W/ALUMINUM SNAP HOOK & TRIPLE LOCK CARABINER

The 018-5009 single leg unit with an aluminum snap hook is lightweight and has a durable translucent housing that not only looks unique, but protects the internal components from debris and contamination. The housing also makes for easy viewing and inspection of the webbing, reserve line, and pawl assembly. This unit comes with a steel carabiner.

- Reliable internal braking system eliminates need for external shock pack
- High strength semi-sealed assembly protects internal components from debris to extend product life
- All components are Z359.12 compliant
- Materials: Steel carabiner, clear resin housing, 20 mm Dyneema® webbing, aluminum snap hook

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-018-5009	Up to 420 lbs	130-310 lbs	7 ft.

7' SINGLE WEB W/STEEL REBAR HOOK & TRIPLE LOCK CARABINER

The Latitude Pro 7' Single Web Self Retracting Lifeline is built with a revolutionary braking system that increases dependability and eliminates the external shock pack. It features a semi-sealed assembly to protect the internal components and unique translucent housing for easy inspection.

- Translucent housing allows easy inspection of webbing, reserve line and pawl assembly
- 360/180° attachment point offers full range of motion
- Protective label cover for product longevity and traceability
- Materials: Steel carabiner, clear resin housing, 20 mm Dyneema® webbing, steel rebar hook

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-018-5010	Up to 420 lbs	130-310 lbs	7 ft.

7' DUAL WEB RETRACTABLES W/ ALUM SNAP HOOK & BWB BRACKET 4.05#

The Latitude Pro 7' Dual Web Self Retracting Lifeline is lightweight with a durable housing that protects internal components from debris and contamination. The translucent housing also makes inspection easy.

- High strength semi-sealed assembly protects internal components from debris to extend product life
- Translucent housing allows easy inspection of webbing, reserve line and pawl assembly
- All components are Z359.12 compliant
- Materials: Steel and aluminum bracket, clear resin housing, 20 mm Dyneema® webbing, aluminum snap hooks

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-018-5025	Up to 420 lbs	130-310 lbs	7 ft.

Class 1

**7' DUAL WEB RETRACTABLES
W/ STEEL REBAR HOOKS & BWB
BRACKET 6.85#**

The Latitude Pro 7' Dual Web Self Retracting Lifeline is built with a revolutionary braking system that increases dependability and eliminates the external shock pack. It features a rugged semi-sealed assembly to protect the internal components and unique colorless housing for handy inspection of the unit.

- 360/180° attachment point offers full range of motion
- Protective label cover for product longevity and traceability
- Dual hooks to maintain 100% tie-off
- All components are Z359.12 compliant
- Materials: Steel and aluminum bracket, clear resin housing, 20 mm Dyneema® webbing, steel rebar hooks

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-018-5026	Up to 420 lbs	130-310 lbs	7 ft.

Class 2

**LATITUDE EDGE 8' CABLE SRL-P:
REBAR HOOKS**

- Unique protective shock pack cover with mesh lining for cool-air comfort.
- Convenient harness fastener straps for added security.
- Behind-the-web bracket attaches easily.
- Durable housing for added dependability.
- 360/180° attachment point swivels for full range of motion.
- Designed for sharp leading edges with foot-level connection.
- All components are Z359.12 compliant
- Materials: Zinc-plated steel bracket, nylon housing, 3/16" galvanized steel cable, steel rebar hooks, polyester shock pack.

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
SW8005-8LE-RBH-DL	Up to 420 lbs	130-310 lbs	8 ft.

Class 1

10' CABLE RETRACTABLE W/ REBAR HOOKS

The Latitude HD 10' Single Cable Self Retracting Lifeline features superior durability with heavy duty housing and high-strength cable.

- Durable housing increases strength and longevity
- Rugged cable provides extreme durability
- 360/180° attachment point offers full range of motion
- All components are Z359.12 compliant
- Max. arrest distance ≤ 42 in
- Max. arrest force ≤ 1,800 lbs.
- All components are Z359.12 compliant
- Materials: Steel carabiner, polymer housing, 4.8 mm galvanized steel cable, steel rebar hook

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-8008-10-RBH	Up to 420 lbs	130-310 lbs	10 ft.

Class 1

10' DUAL CABLE RETRACTABLES W/ REBAR HOOKS & BWB BRACKET

The SW-8008-10-RBH-DL is a 10' galvanized cable retractable lifeline with a mobility enhancing swivel top, fall gate rated carabiner and coated components for harsh and demanding work environments. The galvanized cable of the unit provides greater durability versus a comparable sized web unit and the housing design makes it lightweight and portable.

- High-strength polymer housing
- 0.19 in galvanized steel cable
- Unique breaking system
- Hook side load tested
- 3600 lb gate rated hooks
- All components are Z359.12 compliant
- Materials: Zinc-plated steel bracket, polymer housing, 4.8 mm galvanized steel cable, steel rebar hooks

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-8008-10-RBH-DL	Up to 420 lbs	130-310 lbs	10 ft.

Class 1

10' CABLE RETRACTABLE W/ SNAP HOOK

The Latitude HD 10' Single Cable Self Retracting Lifeline features superior durability with heavy duty housing and high-strength cable.

- Durable housing increases strength and longevity
- 360/180° attachment point offers full range of motion
- 3600 lb gate rated hooks
- All components are Z359.12 compliant
- Materials: Steel carabiner, polymer housing, 4.8 mm galvanized steel cable, steel snap hook

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-8008-10	Up to 420 lbs	130-310 lbs	10 ft.

Class 2

11' LEADING EDGE CABLE RETRACTABLE W/ STEEL REBAR HOOK & ENERGY ABSORPTION PAD

The Latitude Edge 11' Single Cable Self Retracting Lifeline incorporates a distinctive energy absorbing system within a lightweight backpack-style pouch. Engineered specifically for foot-level and sharp edge applications commonly found on construction sites.

- Behind-the-web bracket attaches easily
- Durable housing for added dependability
- All components are Z359.12 compliant
- Materials: Zinc-plated steel bracket, nylon housing, 3/16" galvanized steel cable, steel rebar hook, polyester shock pack

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-8008-11LE-RBH	Up to 420 lbs	130-310 lbs	11 ft.

11' LEADING EDGE CABLE RETRACTABLE W/STEEL SNAP HOOK & ENERGY ABSORPTION PAD

The Latitude Edge 11' Single Cable Self Retracting Lifeline incorporates a distinctive energy absorbing system within a lightweight backpack-style pouch. Engineered specifically for foot-level and sharp edge applications commonly found on construction sites.

- Unique protective shock pack cover with mesh lining for cool-air comfort
- Convenient harness fastener straps for added security
- All components are Z359.12 compliant
- Materials: Zinc-plated steel bracket, nylon housing, 3/16" galvanized steel cable, steel snap hook, polyester shock pack

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
8008-11LE	Up to 420 lbs	130-310 lbs	11 ft.

11' DUAL LEADING EDGE CABLE RETRACTABLE W/STEEL REBAR HOOK & ENERGY ABSORPTION PAD

The Safewaze SW-8008-11LE-RBH-DL 11' Leading Edge Retractable is innovative in design by incorporating the integral energy absorber within a lightweight backpack style enclosure. The unit is engineered for foot-level and sharp edge applications commonly found on construction job sites. It comes complete with a Behind the Web dorsal D-ring attachment device and has a swivel top and durable housing.

- Includes quick attachment bracket built to be easily installed or removed
- All components are Z359.12 compliant
- Materials: High-strength polymer housings, 0.19 in (4.82 mm) Galvanized steel cable, Aluminum Rebar Hooks

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-8008-11LE-RBH-DL	Up to 420 lbs	130-310 lbs	11 ft.

Class 1

LATITUDE HD 11' SINGLE WEB SRL: CARABINER, SNAP HOOK

The FS-FSP1411-W web retractable lifeline features a mobility enhancing swivel-top, rugged durable housing, and unique braking system that eases shock and minimizes free fall distance in the event of a fall. This Latitude lifeline features superior durability with heavy duty aluminum housing and ultra-high molecular weight webbing with sewn-in fall indicator.

- Reliable internal braking system eliminates need for external shock pack
- Durable housing and premium webbing increase strength and longevity
- 360/180° attachment point offers full range of motion
- Materials: Steel carabiner, aluminum housing, 25 mm UHMPE webbing, steel snap hook

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-FSP1411-W	Up to 420 lbs	130-310 lbs	11 ft.

Class 1

CABLE RETRACTABLE W/ SWIVEL FALL INDICATOR HOOK

The Latitude HD Single Cable Self Retracting Lifeline features superior durability with heavy duty housing and high-strength cable. An innovative internal braking system eases shock and minimizes arrest distance, perfect for use in low clearance. Class 1 cable poly housing retractable lifeline with a mobility increasing swivel top, rugged durable housing, and unique braking system that reduces shock and free fall distance in the event of a fall.

- Reliable internal braking system eliminates need for external shock pack
- Materials: High-strength polymer housing, 0.19 in galvanized steel cable, forged steel snap hook, and steel carabiner.

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-FSP1211-G	Up to 420 lbs	130-310 lbs	11 ft.
FS-FSP1215-G	Up to 420 lbs	130-310 lbs	15 ft.

Class 1

NORTHSTAR CLASSIC 20' WEB SRL

The FS-FSP1420-W Self Retracting Web Lifeline has a steel carabiner, swivel top and steel snap hook. The centrifugal braking system is fast-acting and locks up quickly within inches in event of a fall. Rugged and durable high strength polymer housing protects internal components. The 20 feet of 1 inch webbing is made of high strength, cut and abrasion resistant UHMW material. The Class 1 rated SRL has a maximum arrest distance of 54 inches and average fall arrest forces of 1,350 lbs. The swivel top prevents webbing from twisting. Swivel attachment point offers wide range of motion and allows for greater mobility.

- High strength polymer housing resists impact
- Heavy duty webbing includes fall indicator
- Braking system activates quickly to arrest fall
- Materials: Steel carabiner, polymer housing, 1" UHMPE webbing, steel snap hook

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-FSP1420-W	Up to 420 lbs	130-310 lbs	20 ft.

Class 1

CABLE RETRACTABLE W/CARABINER

The Northstar Classic Cable Self Retracting Lifelines are designed with specialized impact resistant housing and non-corrosive components. This durable SRL also features an enhanced swivel top for greater mobility, load indicating snap hook and fast-acting braking system.

- Class 1 cable poly housing retractable lifeline with a mobility enhancing swivel top, fall indicator, and gate rated carabiner included. The unit's impact resistance housing encoded in non-corrosive components ensures extended usage and performance.
- Materials: High-strength polymer housing, 0.19 in galvanized steel cable, forged steel snap hook, and steel carabiner.

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-FSP1220-G	Up to 420 lbs.	130-310 lbs	20 ft.
FS-FSP1230-G	Up to 420 lbs.	130-310 lbs	30 ft.
FS-FSP1250-G	Up to 420 lbs.	130-310 lbs	50 ft.

Class 2

NORTHSTAR CLASSIC LE CABLE SRL

The SafeWaze FS-FSP9020 is a Class B 20' cable retractable lifeline with an integral shock pack making it ideal for leading-edge applications. Northstar Classic Cable Self Retracting Lifeline are designed with specialized impact resistant housing and non-corrosive components. This durable leading edge SRL also features an enhanced swivel top for greater mobility, load indicating snap hook and fast-acting braking system.

- External energy absorber for leading edge use
- Swivel attachment point offers wide range of motion
- High strength polymer housing resists impact
- Braking system activates quickly to arrest fall
- Shock pack with protective cover
- Materials: Nylon and glass fiber housing, anodized aluminum swivel carabiner, zinc plated steel carabiner, 3/16" galvanized steel cable, polyester shock pack

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Length
FS-FSP9020	Up to 420 lbs.	130-310 lbs	20 ft.
FS-FSP9030	Up to 420 lbs.	130-310 lbs	30 ft.
FS-FSP9050	Up to 420 lbs.	130-310 lbs	50 ft.

Class 2

100' CABLE RETRACTABLE LIFELINE

Safewaze™ retractable lifelines are designed to be used as a single person fall protection device. The FS-EX10-100-G features a mobility enhancing swivel-top, a rugged and durable housing, and a unique braking system that eases shock in the event of a fall. Built-in carry handle.

- Housing: Heavy Duty Nylon Housing
- Reinforced carrying handle
- Cable: 3/16" aircraft cable
- Snap Hook: Double Locking Swivel Snap Hook - 3600 lb Gate Rating
- Includes steel carabiner for attaching to top of the SRL
- Max. fall arresting distance is 42" or less

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Cable Tensile Strength	Length
FS9-100G	Up to 310 lbs	130-310 lbs	4200 lbs	100 ft.

22' RESCUE LADDER W/ BELAY SYSTEM

SKU	OSHA Weight Capacity	ANSI Weight Capacity	Strength
FS020-6042	Up to 420 lbs	130-310 lbs	<3,600 lbs

The 22' Rescue Ladder with Belay is a fast and easy rescue solution for a wide variety of job sites. This low-cost method requires only minimal advanced training. Simply anchor the ladder to an existing or temporary anchor point, deploy the ladder and allow the fallen worker to climb to safety. This system includes a belay for assisted rescue.

- 28' abrasion-resistant kernmantle rope
- Aluminum progress capture device
- Protective, water repellent carry bag with reflective trim
- High abrasion polyester webbing
- Materials: Nylon webbing ladder, zinc-plated steel carabiner, ballistic nylon deployment bag, aluminum progress capture device, 11 mm kernmantle nylon rope

QUICK-ADJUST TRAUMA RELIEF STRAP

SKU	Dim.	ANSI Weight Capacity	OSHA Weight Capacity
FS022-6047	2.75" x 2.0" x 3.0"	130-310 lbs	Up to 420 lbs

Quick-Adjust Trauma Relief is easy to attach and simple to deploy after a fall to relieve pressure on the fallen worker and promote circulation until a proper rescue can be completed. Versatile adjustment to better fit workers of all heights and allow easier movement to maintain proper blood flow.

Quick-Adjust Trauma Relief is easy to attach and simple to deploy after a fall to relieve pressure on the fallen worker and promote circulation until a proper rescue can be completed. Versatile adjustment to better fit workers of all heights and allow easier movement to maintain proper blood flow.

RESCUE SUPPORT STEP

SKU	Length	ANSI Weight Capacity	OSHA Weight Capacity
FS902	70"	130-310 lbs	Up to 400 lbs

Suspension Trauma Steps relieve pressure on the fallen worker and promote circulation until a proper rescue can be completed. The strap is deployed after a fall for suspension trauma relief.

- 6' overall strap length
- Multi-step system for versatility
- Durable web construction
- Quickly attaches to most harnesses
- Simple connection at dorsal D-ring

ZINC PLATED STEEL 5/8" REMOVABLE ANTI-PANIC TRAILING ROPE GRAB

STAINLESS STEEL 5/8" REMOVABLE ANTI-PANIC TRAILING ROPE GRAB

SKU	Length	ANSI Weight Capacity	Strength

SKU	Length	ANSI Weight Capacity	Strength
FS1118	3"	130-310 lbs	3,600 lbs. min. to break

The FS1120 is the Zinc Plated Steel version of our removable anti-panic trailing rope grab, making it a more economical solution for your fall arrest needs. The Trailing Rope Grab is an economical solution for fall arrest. This removable rope grab trails along the rope lifeline to provide hands-free mobility.

- Anti-panic feature
- Removable / trailing grab
- Fits 5/8 in. (16 mm) rope

The FS1118 Removable Anti-panic Trailing Fall Arrestor is designed for use with our 5/8" rope. This removable rope grab is constructed with stainless steel for extra corrosion resistance and trails along the rope lifeline with the user. It offers removable versatility. Adjustable position and remains locked during a fall event.

- For use with 5/8 in. rope
- Made of stainless steel
- Removable versatility

The Rope Protector adds product longevity by eliminating the lifeline's direct contact with edges and abrasive surfaces. The protector maintains rope integrity and is ideal for vertical lifeline, rescue, descent and positioning usage.

- Strong web loop secures Protector in place
- Easily installed and positioned to provide long lasting protection

60' HORIZONTAL KERMANTLE ROPE LIFELINE KIT 2 MAN

SKU	OSHA Weight Capacity	ANSI Weight Capacity
FS805KM	Up to 420 lbs	130-310 lbs

The Kernmantle Rope HLL with cross arm straps and web energy absorber is a flexible 2-person rope horizontal lifeline kit with easy setup and removal. This is a complete solution for use on large or small roofing jobs.

- brasion-resistant kernmantle rope
- Secure rope tensioner
- Web energy absorber with protective cover reduces impact forces
- Includes 2 heavy duty 6' cross-arm strap anchors
- Includes 2 O-rings and 2 carabiners
- Convenient carry and storage bag
- Materials: 16mm kernmantle rope, steel carabiners and tensioner, stamped steel O-rings, web energy absorber, 1.75" polyester webbing

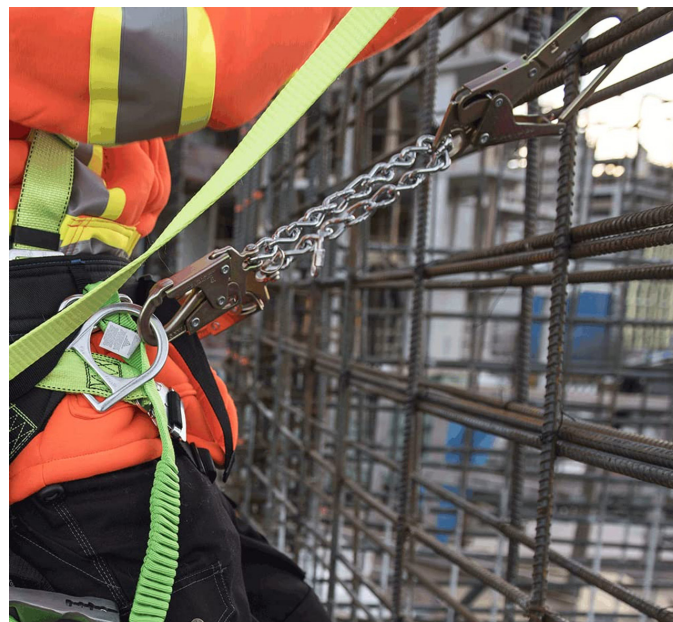

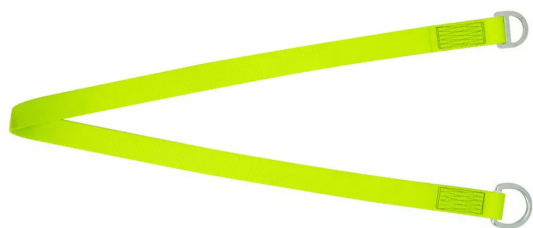

26" CHAIN ASSEMBLY: SWIVEL REBAR HOOK, ADJUSTABLE

SKU	Breaking Strength	OSHA Weight Cap.	ANSI Weight Cap.
FS060	5,000 lbs.	Up to 420 lbs	130-310 lbs

The 26" Chain Assembly provides a flexible, adjustable method to position a user in a full-body harness for work positioning applications. Ideal for use on rebar or concrete structures.

- Adjustable 26" chain assembly
- 1 forged swivel rebar hook
- 2 forged steel snap hooks
- Attachment Points: 1 rebar hook, 2 snap hooks

PREMIER BEAM ANCHOR

SKU	Weight	OAL	Beam Flange Width Range
FS860	3.8 lbs	19"	3.5"-14"

The Sliding Beam Anchor is a versatile trailing anchor solution, for use in horizontal applications. Built to last with rugged, corrosion resistant materials.

- Center positioning retainer prevents jamming on beam
- Lightweight durable construction
- Materials: Aluminum support bar, stainless steel clamps, latches and springs, Plated YCM steel D-ring

CONCRETE HOLE ANCHOR

SKU	Weight	Length	Dia.
FS876	0.8 lbs	10.75 in.	3.0" outside dia.; 2.2" inside dia. eye

The 5K Removable Concrete Hole Anchor is an exclusive product providing instant user mobility and quick anchor removal. Anchor can be set without fear of getting stuck.

- Removable and reusable
- Easy trigger provides quick, repeated use
- 3/4"x 3" drilled hole required for installation
- Materials: Steel body, stainless steel cable slider, forged steel eye

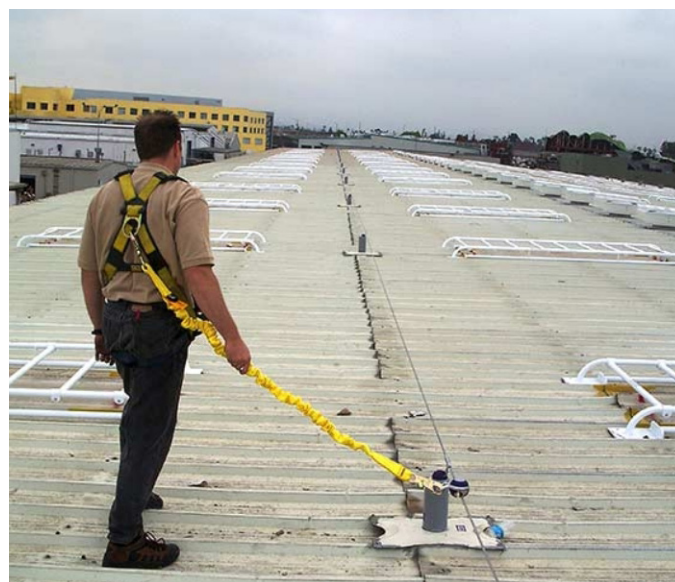

6' CABLE CROSS ARM STRAP - W/D RINGS

SKU	Weight	Length	Breaking Strength
FS830-C6	1.35 lbs	6 ft.	5000 lbs min. to break

The Cable Choker Anchor is a coated steel cable choker-style mobile anchor point. Simply choke the ends around a compatible beam or other rated structure then attach a lanyard or SRL.

- Lightweight and portable, easy install
- Forged pass-through steel O-rings
- Material: Coated 5/16" (7.9 mm) galvanized steel cable

CONCRETE & STEEL D-RING ANCHOR

SKU	Weight	Dim.	Breaking Strength
FS888	1.2 lbs	1/4" x 2" x 4-1/2"	5,000 lbs min to break

This anchor can be used in temporary or permanent applications. Design allows for free movement of D-ring after installation. Ideal for use as a single point anchor or as part of a horizontal lifeline system.

- D-ring moves freely after installation
- Can be bolted or welded on
- Materials: YCM plated steel D-ring and plate

D BOLT ANCHOR

SKU	Weight	Dim.	Breaking Strength
FS887	1.3 lbs	4.5" W x 3" H	5,000 lbs min to break

This anchor is a versatile, easy install anchor point, used in temporary or permanent applications. Ideal as a single point anchor or as part of a horizontal lifeline system.

- Fits rated structures 3" or less
- Materials: Steel body, nut and lock washer

PARAPET WALL ANCHOR

SKU	Weight	Length	Height
FS900	20 lbs	22"	14"

This anchor installs easily onto existing parapet walls without need for additional tools or wall surface penetration. Suitable as an anchor for work positioning or descent off a building roof, or as anchor in your personal fall arrest system.

4-POINT PLATE ANCHOR

SKU	Weight	Dim.	Breaking Strength
FS-021-4076	11.7 lbs	11" x 11" x .38"	5,000 lbs min to break

The 4-Point Plate Anchor is a versatile, temporary roofing anchor. 4 different steel loop anchor points around the perimeter expand the working range, allowing the worker to tie off in the most convenient direction.

- Versatile use as single anchor point or with HLL system
- Easy to install
- Reusable, temporary anchor
- For use on wood, steel and concrete
- Materials: Painted Steel

DOOR & WINDOW JAMB ANCHOR

SKU	Weight	Length	Min. Breaking Strength
FS901	10.3 lbs	59.5 ft.	5,000 lbs min to break

The Window Door Jamb Anchor is ideal for situations involving new construction, rehab, and remodeling where framing is complete or existing. The anchor is most commonly used in window or door jambs as a temporary and reusable anchor point, as part of your personal fall arrest system.

- Lightweight aluminum construction
- Stainless steel connection point
- Eliminates structural damage
- Installs into jamb openings 23.2 to 49.2"
- Portable and reusable
- Easily adjustable design for quick installations
- Materials: Aluminum main body, stainless steel screws, O-ring and detent retaining pin, plastic handle

2 FT. DROP-THROUGH CABLE ANCHOR

SKU	Weight	Length	Strength
FS020-4020	4.6 lbs	2 ft.	5,000 lbs min to break

The Drop-Through Cable Anchor is a versatile anchor point for permanent or temporary use. Simply drop the captive eye and cable through openings in concrete, steel decking, grating or any 1-3/4" hole in a substrate compliant with fall protection requirements.

- 8" high visibility green steel plate
- Forged steel swiveling connection point
- 1/4" steel cable with wear sleeve
- Accommodates openings from 1.75" to 6"
- Materials: Coated cable, stainless steel, galvanized steel

RING ANCHOR

SKU	For use on	Quantity
FS-EX310	Wood or metal	1 pc.

The Ring Anchor is a compact reusable anchor solution with a large ring connection point. Easily installs on wood roofs with included threaded fasteners provided. This roof anchor can be fastened with nails or threaded fasteners and can also be side loaded.

- Installs with 3 threaded fasteners
- Includes (3) 5/16" x 3" hex lag screw
- Materials: Zinc plated steel anchor, stainless steel fasteners

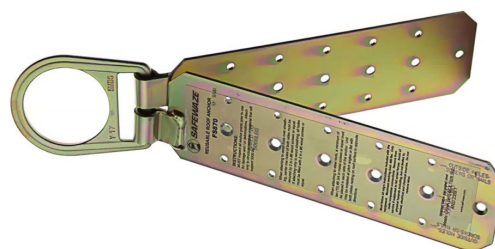

STANDING SEAM ANCHOR

SKU	Weight	Length	Weight Capacity
FS-EX311	7 lbs	6 in.	130-310 lbs

The Standing Seam Roof Anchor is a compact non-penetrating roof anchor designed for use on both sloped or flat standing seam roofs.

- Easy to install, reusable non-penetrating anchor point
- Accommodates a wide range of standing seams
- Materials: Zinc plated steel anchor

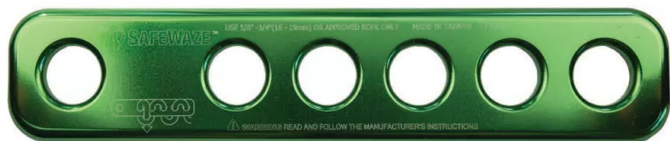

REUSABLE H.D. ROOF BRACKET

SKU	Weight	Length	Strength
FS-870	2.4 lbs	11 in.	5,000 lbs min to break

The Reusable Roof Anchor is built with durable zinc steel and is ideal for temporary use on wood or metal roofs. The anchor hinge design allows it to be screwed or nailed in position on roofs ranging from flat to sheer.

- Installed on peak or flat wood and metal decking roofs
- Hinged construction for adjustment to different angles
- Corrosion resistant plated steel
- Large D-ring connection point
- Fasteners not included
- Materials: Zinc-plated steel

ROPE TERMINATION PLATE

SKU	Weight	OSHA Standards
FS-875	0.6 lbs	1926.502, 1910.66, 1910.140

The Rope Termination Plate is a vertical lifeline anchor designed to replace splicing in synthetic rope. It is lightweight because the termination plate is construction from an aluminum alloy. Just attach a carabiner to the top hole and anchor. If traditional anchor point is unavailable, tieback feature can be used to choke off around a non-abrasive support member.

- Versatile and easy to use
- Ideal for fall protection, work positioning, rope access or rescue
- Used with 5/8" to 3/4" rope
- Materials: Powder-coated aluminum alloy

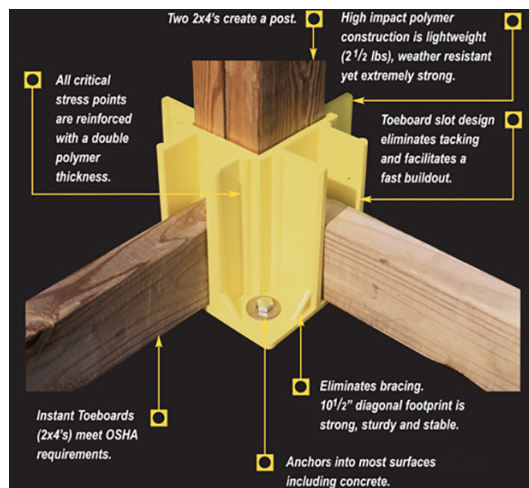

10K ANCHOR BOLT

SKU	Weight	Material
FS-021-4073	0.5 lbs	Zinc-plated steel

10K Replacement Concrete Wedge Bolt is an expansion bolt with sleeve for the 10K Swivel Anchor (021-4072).

- 5/8" heavy duty expansion bolt with sleeve
- For use in concrete

SAFETY BOOT

SKU	Type	Color	Qty.
SB-B12	High-strength polymers	Yellow	12 pack

- The Safety Boot Guardrail System can be kept on-site and easily installed as dangerous fall situations develop.
- Multi-story general contractors use this for easy-to-install, secure guardrails that can be erected in minutes.

5K SWIVEL D-RING ANCHOR

SKU	Weight	Material
FS-021-4081	0.8 lbs	Zinc-plated steel

The 5K Swivel D-ring Anchor Assembly is a low cost, versatile single point solution with a rotating connection point that can be installed vertically or horizontally. Comes with a wedge style bolt allowing for easy install and removal.

The DAX FIFTY50 Carbon Fiber Hardhat is a full brim, carbon fiber reinforced resin hard hat offering a 6 point suspension system for superior comfort and impact protection. It features an innovative synthetic leather comfort dome and an over-sized ratcheting fitment dial that makes adjustment easy even while wearing gloves.

- A Carbon Fiber reinforced resin shell provides superior structural rigidity.
- Our exclusive 50/50 color design offers high visibility on the jobsite along with unique styling.
- Perforated synthetic leather comfort dome with molded EVA foam insert for additional shock absorbing protection to the top of head
- Meets ANSI Z89.1-2014 requirements for Type 1 Class C: Intended to protect against falling objects but not to protect against electrical danger.
- Been tested to radiant heat loads producing temperatures up to, but not exceeding, 350° F.

The Briggs Vented hard hat is a sophisticated and stylish departure from the norm. When you're on the job site you only want the best in safety, comfort, and of course style. With the oversized retention knob, dialing in the fit is a breeze so you never waste any time getting ready to get to work. The six strap interior with four point suspension, gives you the ultimate protection from overhead impacts while an innovative synthetic leather dome keeps you cool and comfortable all day long.

The RADIX Safety Helmet is comfortable thanks to its four-point LUX Suspension system, which guarantees the helmet will fit securely on the head. The magnetic quick-lock, adjustable chinstrap makes it ideal for working at height and on the ground. The ventilated outer shell protects against impact hazards. With its potential for integrating an ARCLIGHT headlamp, LIFT hearing protection, and multiple accessories, it is an entirely modular helmet, thus meeting the specific needs of multiple industries.

- 12 Ventilation channels provide enhanced air flow for comfort and breathability
- Secure four-point connection with easy release magnetic lock
- One size fits most, Standard Head Size 6 ½ - 8 (52-64 cm head circumference)
